PAYMENT PERIOD: Payments are authorized for courses scheduled to be held from September 1, 2005 through August 31, 2006.

PROGRAM DESCRIPTION: College Bridge is a program designed to serve well qualified and highly motivated CPS high school juniors and seniors, and to encourage them to pursue a college education. The students are enrolled in the Chicago Public Schools and in one of approximately 200 courses available at participating colleges and universities. These Courses are in the areas of behavioral/social sciences, science, English, foreign languages, math, computer science, and fine arts. The students will receive both high school advance placement course credit and undergraduate college credit for courses that they successfully complete.

PROGRAM OUTCOMES: The primary outcomes for the College Bridge Program are to enable participating CPS juniors and seniors to earn transferable college credit and advanced placement high school elective credit, enrich these students' academic and experiential backgrounds, and increase their opportunities for being accepted into four-year college degree programs and receiving scholarships. The Program fosters the development of rigorous academic achievement for highly motivated and well-qualified juniors and seniors, thus helping enhance the scholastic standing of Chicago Public Schools.

COMPENSATION: The estimated cost of tuition (based upon 3 credit hours per course) and books appears above. The Board also will pay the universities and colleges for lab and materials fees, for additional charges associated with courses that are 4 credit hours instead of 3, and for tuition increases during the covered period. It is estimated that these additional costs and charges will not exceed \$900 in the aggregate. Total costs to be paid to the colleges and universities for the Program will not exceed \$563,000. Additional Program costs that are not included in this Board Report are the amounts to be paid to CPS high schools to reimburse them for Program-related transportation costs. It is estimated that these additional Program costs will not exceed \$12,000.

AUTHORIZATION: The Chief Officer of High School Programs is authorized to direct payments to be made to the colleges and universities identified herein as costs are incurred. Because the above-quoted tuition and book costs are based upon participation estimates, the Chief Officer of High School Programs also is authorized to reallocate compensation, including the amount allotted for additional costs and charges, depending upon the actual enrollment in each college and university, as long as the total amount to be paid to the colleges and universities for the Program does not exceed \$563,000.

AFFIRMATIVE ACTION: Pursuant to section 3.7 of the Revised Remedial Plan for Minority and Women Business Enterprise Contract Participation (M/WBE) this contract is exempt from review because the contract is for tuition payment.

LSC REVIEW: Local School Council approval is not applicable to this report.
