

CONFIRM, ADJUST AND CORRECT ALL ELEMENTARY AND MIDDLE SCHOOL BOUNDARIES**THE CHIEF EXECUTIVE OFFICER RECOMMENDS:**

The confirmation, adjustment and correction of all elementary and middle school boundaries.

A Public Hearing was held on September 8, 2006 at the Board Offices located at 125 S. Clark discussing the proposed corrections and adjustments.

A community meeting was held at Orozco Elementary School at 1940 West 18th Street, on October 13, 2006 and two additional public hearings were held at the following locations to discuss the proposed corrections and adjustments: Kilmer Elementary School, 6700 North Greenview Avenue, on October 13, 2006 and McNair Elementary School, 4820 West Walton Street on October 17, 2006.

DESCRIPTION:

Confirm, adjust and correct all elementary and middle school boundaries effective November 1, 2006.

These adjustments and corrections are necessary to allow the new IMPACT Student Information Management (SIM) system to properly integrate with the existing CPS' Geographic Information System (GIS).

In many instances, within the GIS, existing elementary school and middle school attendance area boundaries follow alleyways or other non-roadway areas. In some instances, existing school boundaries overlap or run through the middle of residential block groups. With limited exceptions, where existing roadways do not exist, the corrected boundaries follow the centerline of existing roadways.

As CPS prepares to replace the legacy Student Information (SI) system with the new Student Information Management (SIM) system, these boundary adjustments and corrections are necessary to allow SIM to accurately determine the neighborhood school for any given residential address in the City of Chicago.

All adjustments are minor in nature and will not affect any currently enrolled students.

New boundary descriptions are included in appendix A.
