**SCOPE OF SERVICES:**

Cityspan will continue to provide software to the Chicago Public Schools Office of Extended Learning Opportunities to support the management of After School Programs and Supplemental Educational Services.

The software will continue to give 542 Chicago Public Schools access to a student level attendance and data management system. The customized software will meet the data collection and reporting requirements of the Department including reports to automate the tracking of key performance indicators. Cityspan shall develop site-level and administrative reports that will support SES, ASAS, and CSI afterschool reporting requirements. Cityspan shall also develop an enhanced RFP system for ASAS and CSI. Cityspan shall prepare Annual Performance Reviews for OELO's 21st Century CLC schools and transfer the results in the PPICS reporting system.

In addition to the above services, Vendor will develop customizable, aggregate reports for the partner agencies providing services and programs, including Department of Family and Support Services, After School Matters, Chicago Park District, and Chicago Public Libraries. These reports will allow partner agencies to assess overall characteristics of program participants and academic progress of participants.

**DELIVERABLES:**

The Vendor will continue to deliver a data management system that meets OELO's requirements for managing SES and OST programs. The Vendor will continue to modify and improve the software in response to OELO requests for custom data-entry, navigation and reporting features. The Vendor will continue to export data sets that meet the accountability requirements of the Illinois State Board of Education and US Department of Education.

**OUTCOMES:**

The software will allow OELO and schools to analyze the size, scope and impact of its programs and help shape decisions regarding program improvements. Using key indicators, including student-level assessment data, OELO will identify schools that are performing above and below expectations; develop school level technical assistance plans; and set funding priorities that leverage strengths and remedy program weaknesses. The outcome of OELO's use of the software will be a higher level of transparency and accountability across schools and programs, and targeted interventions that will improve program quality and student success.

The software will also allow OELO to meet accountability standards set by the Illinois State Board of Education (for SES programs) and the US Department of Education (for 21st Century CLC programs). Data from the software will be exported to meet requirements of both agencies.
