The projects are of varying degrees of length, but all will have pre-defined start and end dates. These roles include, but are not limited to, enhancement development, new functionality/module implementation support, system architecture, report development, functional analysis, business analysis, change management, project management, and post-implementation production support. Pre-qualified vendors, if requested by the Board, shall provide qualified individual consultants to perform specific roles on projects under the management of CPS staff. The actual skill sets and projects will vary, and pre-qualified firms will be presented with a formal Statement of Work (SOW) with the specific requirements when needed by ITS.

Staff Augmentation: From time-to-time departments are faced with unexpected staffing shortages that need to be addressed in order to comply with the Board's administrative operations in support of the district. Therefore, this pool of pre-qualified vendors has been selected as candidates to provide temporary staffing services during these times with personnel that have a variety of skills necessary to fill temporary personnel deficits for short and long-term assignments. During the term of the contract, pre-qualified firms will respond to Staff Augmentation Requests and, if accepted by CPS, will provide, on an as needed basis, qualified individuals to perform a variety of technology based services as directed by ITS. Staffing requirements will vary depending upon the needs of the various Board's departments and school offices.
