

# Full School Day

# In This Presentation

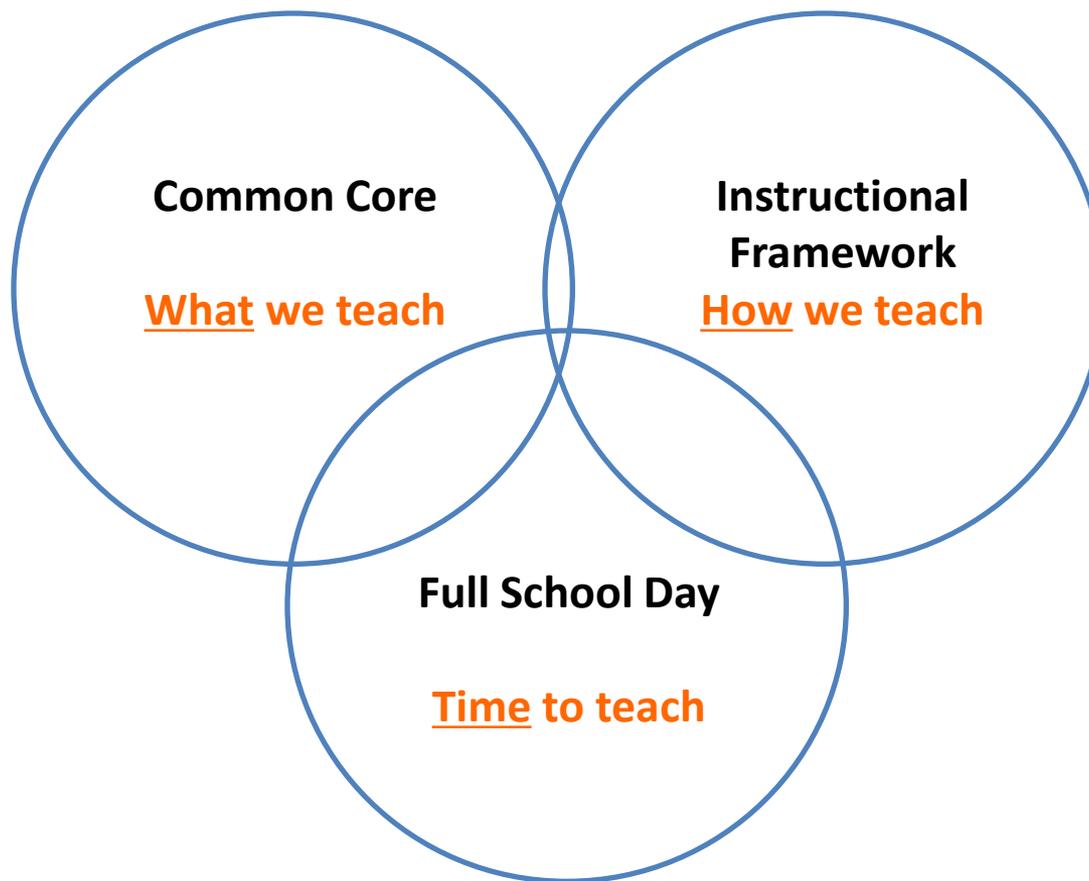

- I. The Challenge/Vision and Instructional Improvement Strategy
- II. Stakeholder Input
- III. The Broad Parameters
- IV. Guidelines for Content
- V. School Planning Process

# Current Challenge

- 123,000 students are in underperforming schools
- Only 57.5% of high school students graduate
- Only 7.9% of high school juniors met all four college readiness benchmarks
- Meanwhile, just 17.1% of elementary students exceeded state standards on the ISAT

**We will create a system of schools that prepares every student, in every community to succeed in college and career.**

An analysis of 15 studies addressing the effects of extending the school day or year found that 14 showed evidence for a **positive relationship between extended school time and student outcomes.**

“Extending the School Day or Year: A Sytematic Review of Research (1985-2009).”  
Erika A. Patall, Harris Cooper and Ashley Batts Allen. Review of Educational Research. September 2010. Vol. 8, No. 3, pgs. 401-436.

**Education Team:** Literacy, Math and Science, Special Education, Language and Culture, Pathways to College and Career, Chiefs of Schools

**Operations Team:** Transportation, Food Services, Safety and Security, Talent

**Community Engagement:** Family and Community Engagement, Communications, Labor

# Stakeholder Engagement

Stakeholders	Full School Day
<b>Principals</b>	 <ul style="list-style-type: none"><li>• Support a longer day</li><li>• Appreciate local flexibility</li></ul>
<b>VIVA teachers</b>	 <ul style="list-style-type: none"><li>• Support longer day &amp; local flexibility</li><li>• Support daily recess, time for arts &amp; PE</li></ul>
<b>Parents</b>	 <ul style="list-style-type: none"><li>• Support longer day</li><li>• Support add'l time on core, arts, recess</li><li>• Concern re: use of time, afterschool</li></ul>
<b>Full School Day Advisory</b>	 <ul style="list-style-type: none"><li>• Support longer day</li><li>• Support recess, time for arts, PE</li><li>• Support local flexibility</li></ul>

Beginning in school year 2012-13,  
we plan on providing students  
with a **7.5 hour student day.**

This would place our students on par with  
the national average for number of  
instructional minutes.

# Full School Day Parameters

- A 7.5 hour day ensures students receive the time they need to:
  - Deepen their understanding of **core academic subjects aligned to Common Core State Standards**
  - Receive required **intervention** and/or **acceleration** opportunities they need to stay on track
  - Engage in **additional learning** opportunities, like music and art
  - Engage in activities that ensure students are planning for **college and career**
  - Recharge from the day by engaging in **recess** activities and have adequate time for **nutrition**

**In a shorter day, schools CANNOT offer students access to all of these opportunities.**

# Full School Day Parameters

## Elementary School Parameters:

- Students will receive a 7.5-hour school day
- Students will receive 6.5 hours of instruction, **an increase of 90 minutes**
- Students will receive have a recess and lunch period
- Teachers will receive 45-minute duty-free lunch and 60 minutes of planning time (1 planning period per week will be directed by the principal.)

## High School Parameters:

- Students will receive a 7.5-hour school day
- Students will receive 6 hours 8 minutes of instruction, **an increase of 46 minutes**
- Teachers will continue to receive 92 minutes of planning time

**Within these parameters, schools will have flexibility to redesign their day to meet the unique needs of their student body with input from community, parents, students, and school staff.**

# Content Guidelines

These guidelines set forth **minimum minutes** per subject area and grade band.

The guidelines were based on a combination of experience from District content experts, an analysis of guidelines adopted by other districts, as well as the time needed for educational models that have a proven impact on student achievement.

Subject	Grades 1-2	Grades 3-5	Grades 6-8
Reading & writing	120	120	90
Math	60	80	80
Science	40	60	60
Social studies	30	40	40

## The Common Core State Standards demand rigorous instruction

In **reading and writing**, students will:

- Get regular practice reading **complex text** and learning **academic vocabulary**
- Build knowledge through more use of **content-rich nonfiction**
- Learn how to ground their opinions with **evidence from text**

In **math**, students will:

- Have time for **depth** vs. breadth
- Experience **hands-on** learning where they can apply skills to real-life problems

In all subjects, the CCSS emphasizes **application of skills** to meaningful tasks and projects and the **integration of reading and writing skills** in every subject.

# Content Guidelines- Melody Elementary

## A Typical Day in 3<sup>rd</sup> Grade:

- **CCSS Reading** (whole group, guided reading)
- **Math** (hands-on, interactive)
- Integrated **Social Science** and process **writing**
- **Science** (including Lab time)
- **Math and Reading intervention** (computer-based)
- Art, Computer, and Gym

**PLUS: Recess and Nutrition**

# Planning Process

Schools are engaging in a planning process with their school communities focused on  
**REDESIGN OF THE SCHOOL DAY**  
(i.e., parents, teachers, students)

**Nov**

**Step 1: Convene the Full School Day planning team**

**Dec**

**Step 2: Create ideal student schedules**

**Jan - Feb**

**Step 3: Create a DRAFT plan / high-level master schedule**

**Mar**

**Step 4: Refine the plan to maximize time**

**Apr-May**

**Step 5: Create a FINAL plan**

## 5 professional development sessions:

- **Nov:** Creating the **ideal school day** to prepare each student for college and career
- **Dec:** Creating a **schedule** that meets the needs of each student
- **Jan:** Using **resources** flexibly to sustain expanded learning time
- **March:** Maximizing time to provide a **well-rounded** education
- **April:** Putting your plan into **action**

**Webinars** – Programming strategies, Special Ed, the Arts

**Planning documents and resources**

## Innovation Grants

- We know this is NOT a one-time effort, but rather an ongoing process for our schools to creatively maximize time to support each and every student
- We need **models of excellence**-- "proof points" of what's possible with the school day and schools who will help lead their networks and the district in adopting creative approaches to school redesign
- Up to 30 selected schools would receive a **one-time planning grant of \$100,000 in the 2012-13 school year**

**We will create a system of schools that prepares every student, in every community to succeed in college and career.**
