22-0427-RS1

**RESOLUTION REGARDING A NEW APPROACH TO ACCOUNTABILITY
FOR DISTRICT-RUN SCHOOLS FOR SCHOOL YEAR 2023-2024 AND BEYOND**

WHEREAS, the district strives to provide a high-quality and equitable educational experience that creates supportive environments and prepares every child, in every neighborhood, with a wide range of life skills. To deliver on this vision, we must have a clear sense of shared goals and monitor our progress towards reaching those goals so that our CPS family - the district, students, teachers and school administrators, parents, and other community stakeholders - can work together to provide supports, and set high expectations, for all our students; and

WHEREAS, the purpose of the district's current accountability policy, School Quality Rating Policy (SQRP), was intended to establish standards and criteria for each school to systematically measure a school's performance and to identify schools in need of support and increased oversight due to low student performance as measured by proficiency and growth on standardized test scores, closing of opportunity gaps, indicators for school culture and climate, attendance, graduation, and preparation for post-graduation success; and

WHEREAS, since the adoption of amendments to SQRP at the June 26, 2019 Board Meeting (Board Report 19-0626-PO2), a core operating principle and mindset that has guided decision-making at the district and Board level is Targeted Universalism, defined in the district's Equity Framework as an approach to equity that focuses the work of our community on targeted solutions to support different student groups (based on race, gender, gender expression, economic disadvantage, and diverse learning needs) in reaching shared, universal goals for every student. This approach recognizes that gaps in opportunity are driven by endemic structural racism and socio-economic inequality and differences in how students are situated in relation to the educational system and universal goals; and

WHEREAS, addressing these inequities is the work and charge of public education and underscores why information and measurement is important to ensure we are making progress towards this goal, and without such information, we would not know if our collective efforts are preparing our students to succeed and thrive; and

WHEREAS, during the June 2019 Board Meeting, Board members expressed the need for a new approach to accountability incorporating the core principles of Targeted Universalism by reimagining an accountability approach that is not punitive, better informed by stakeholder needs and feedback, and better aligned to the core work of schools—teaching and learning—and reflective of community values. This new approach to accountability grounded in Target Universalism also recognizes the critical role of systems and structures in students' everyday experiences and acknowledges that the way students interact with those systems and structures differs depending on identity and students' life circumstances, both of which can affect how they perform in school; and

WHEREAS, while the current SQRP gives considerable weight to outcomes of standardized summative test scores, traditional uses of such scores: are not aligned with best practices as defined by research; are inconsistent with feedback from diverse stakeholders who have consistently expressed a need for a broader definition of educational success; reflect an important but narrow view of student learning; have limited utility for teachers and school administrators as they assess student needs throughout the school year; and have been used for high-stakes decisions, such as School Actions (e.g., closures). Any measures of student achievement have the most value when they inform or support improvements; and

WHEREAS, while SQRP designates a single summative rating (e.g., Level 1), research and feedback from students and families consistently demonstrates a need for school-level information beyond a single rating. This research and feedback also demands an accountability approach that reflects a broad range of community values that serve as the foundation for what a high-quality educational experience entails. There is a need for stronger alignment with community values; and

WHEREAS, since June 2019, district staff and partners have made efforts to engage with stakeholders in the design of a new accountability approach that is more reflective of our community values. Those engagement efforts have yielded a great deal of information on what a successful approach to accountability needs to consist of in order to meet both stakeholder and district needs; and

WHEREAS, due to the impact of COVID-19 beginning in approximately March 2020 to the present day, the district has not completed the design of the new accountability approach, and district stakeholders have clearly indicated the need for more engagement and discussion before finalizing policy decisions regarding a new approach to accountability;

NOW, THEREFORE, BE IT RESOLVED:

1. The district will establish a comprehensive framework for a high-quality educational experience for Pre-Kindergarten through 12th grade for all CPS students. A clear articulation of the required elements of a high-quality educational experience for all CPS students creates **foundational values and a vision** so that our entire CPS family can work together towards shared goals, and so that the district can develop pathways to achieve those shared goals and identify and establish the resources to support them. This comprehensive framework for a high-quality CPS educational experience must:
 - a. Be grounded in and supportive of the district's Instructional Core Vision (ICV) for Pre-Kindergarten through 12th grade; and
 - b. Set high expectations, and require ambitious instruction, for all CPS students; and
 - c. Reflect the essential qualities of a CPS educational experience that aligns with the values held by the district, students, teachers and school administrators, parents, and other community stakeholders; and
 - d. Be shared at a public Board Meeting with sufficient time and opportunity for socialization with the CPS community prior to the final adoption of any new district accountability policy.
2. The **approach** to the reimagined accountability policy for all district-run schools must:
 - a. Be in alignment with the district's Equity Framework for Targeted Universalism by going beyond solely focusing on school-level outputs and outcomes and adding greater consideration to, and accountability for, inputs such as the set of resources (e.g., funding to schools) and conditions (e.g., safe and inclusive professional and student learning environments) that impact a high-quality educational experience in schools. The reimagined accountability approach must be aligned with a theory of action that incorporates inputs and practices, at the school and district level, which support the universal goal of every CPS student achieving the high-quality educational experience as outlined in both the ICV and stakeholder feedback.
 - b. Establish greater accountability for the district, grounded in the shared responsibility of promoting the structural supports necessary to create school environments that support equitable outcomes for all students. This change is not to be interpreted as diminished accountability at the school level; rather, the approach to accountability must reflect the fact that schools do not exist in isolation and that many out-of-school factors influence schools and student learning. This change also recognizes that district-level accountability also does not exist in isolation and is influenced by many factors outside of the district's purview.
3. Establish in the reimagined approach to accountability that the **goals and core uses** of information are to:
 - a. Support the whole child by enabling improved teaching and learning in schools; and
 - b. Inform families about all the characteristics that comprise the high-quality educational experience referenced in Paragraph 1; and
 - c. Leverage information about these characteristics in the approach to accountability internally to diagnose where and how to equitably direct resources and supports to schools; and
 - d. Ensure the district remains in compliance with state law (i.e., Illinois School Code Section 8.3), which requires the district to define an accountability status (e.g., Good Standing, Remediation, or Probation) for every district managed school.
4. The reimagined approach to accountability **must not** be punitive. To prevent the punitive dynamics of prior accountability systems, the new approach to accountability must include the following:
 - a. While state law requires the district to disclose accountability status (i.e., Good Standing, Remediation, or Probation), the new accountability policy must not otherwise rank schools, either through a summative designation (e.g., Level 1, Level 2, etc.) or by any other means.
 - b. While state law requires the district to publish criteria for schools to be eligible for school closure, consolidations, and co-location, such decisions must not be based solely on accountability status.
5. The Chief Executive Officer must recommend to the Board a new accountability policy that can be adopted in time to be implemented in the 2023-24 school year, and thereafter the Chief Executive Officer must evaluate the policy every 3 years for continuous improvement and make recommendations to the Board as necessary.
6. This resolution is effective immediately upon its adoption.

The Charter School Agreement will incorporate an accountability plan in which the charter school is evaluated by the Board each year based on numerous factors related to its academic, financial and operational performance.

CHARTER EVALUATION: After receiving the charter renewal proposal, the Office of Innovation and Incubation conducted a comprehensive evaluation of Youth Connection Charter School's academic performance, financial viability, and legal and contract compliance. This evaluation included a review of the proposal, academic results, financial performance, governance documents, parental issues, facilities surveys, and special education documentation. A public hearing was held on January 9, 2020 for all contract and charter schools going through renewal to receive public comments, including Youth Connection Charter School. The Office of Innovation and Incubation recommends that, based on the school's performance on these and other accountability criteria, as well as the school's demonstration of intent to satisfy the "Additional Terms and Conditions" referred to herein below, Youth Connection Charter School be authorized to continue operating as a charter school.

RENEWAL TERM: The term of Youth Connection Charter School's charter and Charter School Agreement is being extended for a five (5) year term commencing July 1, 2020 and ending June 30, 2025.

FINANCIAL: The financial implications will be addressed during the development of the 2020-2024 ~~2022-2023~~ fiscal year budget. EARLY TERMINATION RIGHT:

The Board shall have the right to terminate this agreement with 30 days written notice.

SCOPE OF SERVICES:

In 2017, the Illinois State Board of Education (ISBE) received allegations that certain processes and procedures at CPS were preventing IEP teams from including needed support and services on some students' IEPs. ISBE did an investigation (the Public Inquiry), found some of the procedures in effect in 2016-2017 and 2017-2018 to be problematic, and directed CPS to offer remedies to students to make up for that potential harm (Student Specific Corrective Action). Since then, CPS has worked closely with ISBE and other stakeholders to identify students who may have been impacted by the problematic procedures and to offer those students remedies. Because special education is individualized to meet the unique needs of each student, this process has been complex and time-intensive. Initially, the district reviewed student information, identified students who were potentially harmed, and planned to hold meetings to analyze each of those students' individual circumstances to determine whether they were owed a remedy. To more efficiently deliver remedies to students who may have been impacted, the process was adjusted to provide automatic remedies (Universal Enrichment Remedies or UERs) to most of the identified students. Other students (who were perhaps less likely to have been harmed) would receive an automatic SSCA meeting to consider their particular circumstances. Moving forward, CPS is now offering automatic remedies (UERs) to students who were previously identified to receive an automatic SSCA meeting.

DELIVERABLES:

Streamline and issue all monetary disbursements to the affected families
Multiple lines of communication with families to file claims

OUTCOMES:

Vendor's services will result in administering the claims for SSCA processes.

COMPENSATION:

Vendor shall be paid as follows: Estimated annual costs for the one (1) year term are set forth below:

\$250,000, FY23

REIMBURSABLE EXPENSES:

AMEND BOARD REPORT 14-0326-OP1
AMEND BOARD REPORT 13-1218-OP3
APPROVE NEW LEASE AGREEMENT WITH ONE NORTH DEARBORN PROPERTIES, LLC
FOR CPS' HEADQUARTERS OFFICE**

THE CHIEF EXECUTIVE OFFICER REPORTS THE FOLLOWING DECISION:

Approve entering into a lease agreement with One North Dearborn Properties, LLC for CPS' headquarters office. A written lease agreement is currently being negotiated. The authority granted herein shall automatically rescind in the event a written agreement is not executed within 90 days of the date of this Board Report. Information pertinent to this lease agreement is stated below.

The March 2014 amendment is necessary to add additional space to the 9th floor of the leased Premises. A written amendment to the Lease is required. The authority granted herein shall automatically rescind in the event the lease amendment is not executed within 90 days of this amended Board Report.

The June 2014 amendment is necessary to provide authority for interior build-out work in the amount of \$6.8 million. The lease stipulates a landlord provided tenant improvements allowance. The lessor provides funds to build out the space in order to cover costs in excess of the tenant improvements allowance. These funds will pass through the landlord to the general contractor for completion of the work. This amendment was anticipated but we could not provide the correct amounts until we completed final design and received preliminary GMP (gross maximum price) responses from the general contractor. These funds are already included in the FY-15 capital budget.

This April 2022 amendment (Third Lease Amendment) is necessary to (1) change the name of the Landlord because the building was sold, (2) expand the Leased Premises to include an additional 3,074 square feet on the ninth (9th) floor at no additional charge, (3) extend the term of the Lease for five (5) years from December 1, 2029 to November 30, 2034, (4) receive eight (8) months of free rent abatement and a \$7,484,520 Construction Allowance in exchange for the waiver of Tenant's option to cancel the Lease as of November 30, 2023 and (5) change Tenant's proportionate share of real estate taxes for the Leased Premises due to a tax and vertical subdivision. A written amendment to the Lease is required. The authority granted herein shall automatically rescind in the event the lease amendment is not executed within 90 days of this amended Board Report.
