AMEND BOARD REPORT 11-0824-PO2 ADMISSIONS POLICY FOR MAGNET, SELECTIVE ENROLLMENT AND OTHER OPTIONS FOR KNOWLEDGE SCHOOLS AND PROGRAMS

THE CHIEF EXECUTIVE OFFICER RECOMMENDS:

That the Board amend the Admissions Policy For Magnet, Selective Enrollment and Other Options For Knowledge Schools and Programs.

PURPOSE: The purpose of this policy is to provide a comprehensive framework for enrollment in and the operation of magnet, selective enrollment and other Options for Knowledge schools and programs in the Chicago Public Schools ("CPS" or "the District"). Magnet and selective enrollment schools and programs have several goals including: (1) to maintain, to the extent permitted by law, the diversity achieved by the District prior to the termination of the consent decree in the federal lawsuit captioned, *U.S. v. Board of Education of the City of Chicago* (80 C 5124)(N.D. IL); (2) to promote socio-economic ("SES") diversity within schools including, but not limited to, the prevention, reduction and elimination of isolation based upon income levels, parental education levels and other social and economic factors having an established correlation to educational achievement; (3) to provide a unique or specialized curriculum or approach; and (4) to improve achievement for all students participating in a magnet or selective enrollment school or program. This policy is created to ensure equal access and equity in the provision of magnet and selective enrollment schools and programs offered by the District.

HISTORY: On December 16, 2009, the Board adopted a one-year policy which first introduced a SES diversity model and governed applications for 2010-2011 school year enrollments. On November 17, 2010, the Board adopted another one-year policy that governed applications for 2011-2012 school year enrollments. Both one-year policies were subject to public comments and review by a Blue Ribbon Commission appointed by the Chief Executive Officer. In 2011, The Chief Executive Officer ("CEO") and his designees considered public comments and Blue Ribbon Commission recommendations on whether to adopt a general Policy on Admissions to CPS Magnet and Selective Enrollment Schools and Programs in lieu of a limited one-year policy.

POLICY TEXT:

I. APPLICABILITY: This policy applies to enrollment in magnet, selective enrollment and other Options for Knowledge schools and programs beginning with the admissions process for 2012-2013 school year enrollments.

II. TYPES OF MAGNET, SELECTIVE ENROLLMENT AND OTHER OPTIONS FOR KNOWLEDGE SCHOOLS AND PROGRAMS: The Chicago Public Schools operates the following types of magnet, selective enrollment and other Options for Knowledge schools and programs, which are collectively referred to in this policy as "magnet and selective enrollment schools and programs":

1. **Elementary Magnet Schools:** Elementary magnet schools offer a curriculum focused on a specific programmatic theme(s). Every student in the school is involved in the magnet theme(s) or focus offered at that school. To be considered for acceptance, students must submit an application in accordance with the Options for Knowledge publication and other related publications issued by the CEO or designee (collectively referred to in this policy as "the Options for Knowledge publication"). CPS uses non-testing admissions procedures for its magnet elementary schools. Generally, magnet schools do not have a neighborhood attendance boundary. For magnet schools with defined attendance areas, the admissions process is similar to the process for elementary magnet cluster schools.
2. **Elementary Magnet Cluster Schools:** A magnet cluster school is an elementary neighborhood school with a defined attendance area. These schools accept all students who live within the boundary; any remaining available seats are filled by students who live outside of the neighborhood attendance boundary. Magnet cluster schools are designed to enhance educational opportunities for neighborhood students, as well as increase choice for students citywide. Magnet cluster schools offer a curriculum focused on a specific programmatic theme(s). CPS uses non-testing admissions procedures for its magnet cluster schools. To be considered for admissions, students who live outside of the attendance boundary must submit an application in accordance with the Options for Knowledge publication.
3. **Selective Enrollment Elementary Schools and Programs ("SEES"):** SEES provide programs and services that modify, supplement and support the standard education of students identified as gifted and talented, who consistently excel in general intellectual ability or possess aptitude or talent in a specific area. SEES schools consist of Regional Gifted Centers, Classical Schools, Academic Centers and International Gifted Programs, as further described below. CPS uses standardized testing admissions procedures for these schools and programs.
 - a. **Regional Gifted Centers** - A Regional Gifted Center is an elementary school or a program within an elementary school that offers a curriculum that is designed to meet the needs of gifted students and is faster in pace, broader in scope, and presents subject matter in greater depth than is possible in most programs. Some of these centers are designed to service the needs of high-ability English Language Learners.
 - b. **Classical Schools** - Classical Schools are designed to provide a challenging liberal arts course of instruction for students with high academic potential. The instructional program in these elementary schools is accelerated and highly structured for strong academic achievement in literature, mathematics, language arts, world language and the humanities.
 - c. **Academic Centers** - Academic Centers are housed in high schools and offer a program that allows academically advanced students in grades 7-8 the opportunity to access advanced courses, including high school level courses, and move through course material at their own pace.
 - d. **International Gifted Programs** - International Gifted Programs are designed for intellectually able 6th, 7th and 8th grade students. The programs include intensive study in English, French, social studies, laboratory science, mathematics, technology, arts, library science and advanced research.
4. **Selective Enrollment High Schools ("SEHS"):** SEHS are designed to meet the needs of the city's most academically advanced high school students. A selective enrollment high school does not have an attendance area. CPS uses criteria that include standardized testing for admission to these schools.
5. **Magnet High Schools and Programs:** Generally, magnet high schools do not have a neighborhood attendance boundary. Magnet high schools offer a curriculum focused on one or more specific programmatic themes. CPS uses non-testing admissions procedures for its magnet high schools; however, a threshold stanine is generally required for eligibility. High school magnet programs also are located in neighborhood high schools in order to enhance educational opportunities for neighborhood students, as well as increase choice for students citywide. The schools accept students who live within their attendance boundaries. Students who live outside of the neighborhood attendance boundary must submit an application; students are selected in accordance with the procedures described in the annual Options for Knowledge publication.

6. International Baccalaureate Programs in Neighborhood High Schools ("High School IB Programs"): The High School IB Program is a pre-university program for academically advanced in grades 11 and 12. Located in neighborhood schools, these programs are designed to enhance educational opportunities for neighborhood students, as well as increase choice for students citywide. Students (both neighborhood students and citywide students) must apply for enrollment in a High School IB Program prior to entering high school; students are selected in accordance with the procedures described in this policy and the annual Options for Knowledge publication.

7. Other Options For Knowledge Schools and Programs: Other Options for Knowledge schools and programs include but are not limited to Military Academies, High Schools with College and Career Academy programs, Open Enrollment schools any other school or program specified by the CEO or designee in the annual Options for Knowledge publication.

III. CONSIDERATION OF SOCIO-ECONOMIC FACTORS IN THE SELECTION PROCESS: The District's magnet and selective enrollment admissions processes consider socio-economic status ("SES") factors that relate to the census tract in which an applicant resides at the time of application. Parents/guardians are responsible for providing a true and correct address on all applications and updating their current address with the Chicago Public Schools on a timely basis. The application address will update a student's address with the system of record (IMPACT). CPS utilizes data in the following six areas to calculate SES scores and designate an SES tier for each census tract: (1) median family income, (2) adult educational attainment, (3) the percentage of single-parent households, (4) the percentage of home ownership, (5) the percentage of the population that speaks a language other than English; and (6) a school performance variable. Results from these six SES factors will be combined to create a composite census tract score for each census tract in Chicago.

The first five SES factors are derived from data gleaned from the U.S. Census Bureau and other updated sources of reliable and relevant information. Although the U.S. Census is administered every 10 years, current estimates of data tracked by the census are made available through updates published by the U.S. Census Bureau and through reliable commercial demographic marketing firms that use a variety of supplemental data sources. These data are widely used in retail, health care, telecommunications, real estate, and economic development industries, among others. The sixth factor, the school performance variable, is calculated annually from ISAT scores for attendance area schools in each census tract. The SES tier assignment for each census tract is published on the Office of Academic Enhancement's website at www.cpsoae.org.

IV. MAGNET SCHOOLS AND PROGRAMS - SELECTION PROCESS: Magnet schools and programs use the computerized lottery selection process described below.

1. Elementary Magnet School Lottery Selections – Entry Level:

a. Siblings – All sibling applicants shall be offered seats to the extent space is available. Lotteries will be conducted as necessary if the number of sibling applicants is greater than the number of available seats, and a designated sibling wait list shall be established if there are more sibling applicants than available space. To be eligible, the enrolled sibling and the applicant sibling must reside in the same household and must be attending the same school at the same time for at least one school year. For the purposes of this policy, the term sibling means natural siblings, step siblings, foster siblings and adopted siblings, as evidenced by documentation required by the CEO or designee. A sibling of a student who will be graduated, or who is scheduled to transfer to another school, prior to the enrollment of the sibling who is applying for admission, shall not be eligible for this priority.

b. Proximity Lottery – After placing siblings as described above, 40% of the remaining seats will be allocated to the proximity lottery and the balance to the citywide SES lottery. Proximity determinations will be made by the CEO or designee through a geocoding-based proximity analysis conducted prior to the lottery. All applicants will be placed into the proximity or citywide lotteries based on the application address.

If the number of proximity applicants is less than the number of seats allocated for the proximity application process, those applicants will be given offers and the remaining seats will be filled through the citywide SES lottery.

Where there are more proximity applicants than available seats, computerized lotteries may be run for applicants residing within a 1.5 mile proximity radius of the elementary magnet school and a 2.5 mile proximity radius of the magnet high school. The proximity radius is determined by a straight line method that does not consider driving distances. A sufficient number of offers will be made in lottery order to fill the seats allocated to the proximity selection process. The remaining proximity applicants will be placed on a proximity wait list.

In an effort to ensure ongoing diversity in these programs, if more than 50 percent of the entire student body, according to the current 20th day file, is comprised of students within the proximity and if more than 50 percent of the student body is any one racial or ethnic group, no proximity lottery will be held for that school. Where both conditions are met, all applicants, including those living in the proximity area, will be placed into the citywide SES lottery.

c. Citywide SES Lottery – Offers for the seats allocated to the citywide SES lottery process will be made using the four SES tiers described in Section III. above. Applicants for the citywide SES lottery process will be placed into the four SES tiers based on the applicant's address noted on the application. Lotteries will be conducted within each of the four SES tiers and applicants will be ranked in lottery order within each tier. If there are insufficient applicants within a tier to fill the allocated number of seats in that particular SES tier, the unfilled seats will be divided evenly and redistributed across the remaining tier(s) as the process continues. A sufficient number of offers will be made in lottery order for each SES tier to fill the seats allocated to this lottery process. The remaining applicants will be placed on an applicant wait list by SES tier.

2. Elementary Magnet School Lottery Selections – Non-Entry Level: Applications to transfer to an elementary magnet school or program at a higher grade level, and requests to transfer to a magnet school or program during the school year at any grade level shall be handled through the following procedure: Available seats will first be offered to siblings of currently enrolled students (with a lottery conducted if there are more sibling applicants than seats). The remaining seats will be filled through a citywide lottery. Requests to transfer into an entry-level grade after the commencement of the school year shall be handled in accordance with the wait list requirements set out in section IV.5. herein.

3. Selections for Elementary Magnet Cluster Schools and Elementary Magnet Schools with Attendance Boundaries: For students who reside outside the attendance area of a magnet cluster school or magnet school with an attendance boundary, applications for entry-level and non-entry level grades must be submitted in accordance with the Options for Knowledge publication. After enrolling all attendance area students, available seats will first be offered to sibling applicants of currently enrolled students (with a lottery conducted if there are more sibling applicants than seats). The remaining seats will be filled through a citywide general lottery that does not apply SES tier factors. For schools with an entry level grade of pre-kindergarten, applications are required for all students who wish to enroll in pre-kindergarten regardless of whether the student lives within the school's attendance boundary.

4. Selections for Magnet High Schools and Programs: All applicants are subject to threshold academic criteria in order to apply as specified in the Options for Knowledge publication. Where there are more qualified applicants than available seats, students are selected through the computerized sibling selection, proximity lottery and SES lottery processes outlined in section IV.1.a., IV.1.b. and IV.1.c. above. For magnet high schools and high school magnet programs with academic requirements, sibling applicants must meet eligibility requirements in order to qualify for sibling priority admission.

Notwithstanding the foregoing, if a high school magnet program is a performance-based program (such as a performing or arts program at a neighborhood school), after identifying students meeting threshold academic criteria, a combination of academic and audition/portfolio-based criteria will be used to select students as specified in the annual Options for Knowledge publication. Applicants are ranked through a computerized process based on this combination of criteria with student selections made based on rank order.

Applications to transfer to a magnet high school or program at a non-entry level shall be reviewed and approved by the CEO or designee.

5. Wait Lists: Wait lists shall be annually established by the CEO or designee for enrollment at a magnet school or program based on the ranking of applicants through the lottery process for applicants at all grade levels. The established wait lists will remain in effect until the end of the school year in which the wait list applies. Any school wishing to make offers to applicants identified on the wait lists must contact the parent/guardian of those applicants in wait list order and record how and when they attempted contact and if the parent/guardian responded. Schools are required to use IMPACT to track whether students have accepted or declined, in accordance with the CEO's or designee's procedures. No applicants may be given offers for seats in a magnet school or program unless those applicants appear on the wait list established by the CEO or designee for that school and grade. Schools that have exhausted their wait list(s) may accept additional applications, but all applications must be approved by the CEO or designee to authorize enrollment. Audits will be conducted periodically to ensure compliance with all wait list procedures.

For both entry- and non-entry-level seats, where a school is maintaining a wait list for sibling applicants, the sibling wait list must be exhausted first. Where a school does not have a sibling wait list but maintains proximity and general wait lists, the school shall alternate between the proximity and general wait lists when enrolling students in accordance with the procedures established by the CEO or designee.

6. NCLB School Choice: Notwithstanding the foregoing, the CEO or designee may set aside a prescribed number of seats at magnet schools and magnet cluster schools that qualify as NCLB School Choice receiving schools to conduct Choice lotteries for qualifying students.

7. Principal Discretion: This policy does not authorize principals of magnet schools and programs to exercise principal discretion in the student selection process.

V. SELECTIVE ENROLLMENT SCHOOLS AND PROGRAMS - SELECTION PROCESS: Students are selected for Regional Gifted Centers, Classical Schools, Academic Centers, International Gifted Programs and Selective Enrollment High Schools and High School IB Programs through academically-based criteria and a computerized selection process, as described below. The goal of the selective enrollment selection process is to offer a student the optimum match of school/program choice as indicated on the student's application based on the student's composite score and, for SES-based selections, the student's census tier.

1. Selection for Regional Gifted Centers, Classical Schools, Academic Centers, International Gifted Programs and Selective Enrollment High Schools – Entry Level: Applicants who attain final scores above the cutoff score established by the CEO or designee will be selected through a system that affords applicants two opportunities to be chosen for enrollment at each of their preferred selective enrollment schools or programs. Applicants to each selective enrollment school or program are first ranked based solely on their composite score results from applicable testing and/or academic criteria. Next, all applicants to the particular school or program are again ranked by their assigned SES tier based on the composite score results from applicable testing and/or academic criteria.

A total of 30% of the available seats shall be filled in rank order from the testing/academic criteria-only list. The remainder of available seats shall be filled in rank order from the lists that rank applicants by each of the four SES tiers, with an even number of students selected from each of the four SES tier rank lists. If there are insufficient qualifying applicants within an SES tier to fill the allocated number of seats in that particular tier, the unfilled seats will be divided evenly and redistributed across the remaining tier(s) as the process continues.

An applicant will be considered in both the score-only rank list and the SES tier rank list for each school identified on the student's application in the student's order of preference until the student is selected by a school or until the student's school preference list is exhausted. Applicants are selected in rank order from each list in such a way that when a student is selected from the score-only list, his/her name will not be processed on the SES tier rank list for that school. Under this single offer model, only one offer is permitted per round of admissions. Once a student accepts an offer for a school or program, he/she will not be considered for any other schools and programs identified on the student's application in future rounds of admission. There is no guarantee that more than one round of admission will be necessary.

There shall be no transfer opportunities into an entry level grade at a Regional Gifted Centers, Classical Schools, Academic Centers, International Gifted Programs, or SEHS after the commencement of the first day of the school year, except as authorized under the Options for Knowledge publication.

2. Selection for Regional Gifted Centers, Classical Schools, Academic Centers, International Gifted Programs and Selective Enrollment High Schools – Non-Entry Level: Applications to enroll in a selective enrollment elementary school or program (SEES) at a grade level other than an entry-level grade are subject to review and approval by the CEO or designee. All such transferring students must satisfy all application and testing requirements and shall be considered in accordance with the Options for Knowledge publication. Applications to enroll in a selective enrollment high school or program at a grade level other than the entry-level grade are subject to review and approval by the CEO or designee.

3. Selection for High School IB Program: Students (both neighborhood students and citywide students) must apply for enrollment in a High School IB Program prior to entering high school. To support the continuum of International Baccalaureate (IB) programming between partnering elementary schools and high schools offering an IB program, applicants from partnering schools are given preference in the selection process. Applicants from a high school's partner IB elementary schools shall be offered seats to the extent that space is available. For remaining seats, applicants who satisfy threshold academic criteria are evaluated based on a combination of academic and interview criteria, with students receiving additional points if they reside within the school's attendance boundary. Applicants are ranked through a computerized process based on this combination of criteria with student selections made based on rank order.

Applications to enroll in a High School IB Program at a grade level other than the entry-level grade are subject to review and approval by the CEO or designee.

4. Set Asides: In consultation with the Office of Special Education and Supports, certain selective enrollment schools and programs may also be subject to additional set-aside requirements for the placement of students with disabilities, as may be required by law. Additionally, the CEO or designee is authorized to incorporate set-asides for a NCLB choice process in the SEHS selection process.

5. Siblings: There is no priority admission of siblings to Regional Gifted Centers, Classical Schools, Academic Centers, International Gifted Programs and Selective Enrollment High Schools or High School IB Programs.

6. Principal Discretion: Principals' discretionary admissions shall be allowed in SEHS only. Annually the CEO or designee shall identify the requisite number of principal discretion seats available at each SEHS. All SEHS principal discretion admissions shall be conducted in strict compliance with the CEO's SEHS principal discretion guidelines. This policy does not authorize principals of SEES or High School IB Programs to exercise principal discretion in the student selection process.

VI. OTHER OPTIONS FOR KNOWLEDGE SCHOOLS AND PROGRAMS - SELECTION PROCESS: Students are selected based on the criteria and process identified for each school or program in the Options for Knowledge publication.

VII. APPLICATIONS: Students seeking admission to a magnet or selective enrollment school or program or other Options for Knowledge school or program shall submit applications in accordance with the requirements and deadlines specified in the Options for Knowledge publication.

1. Existing Students: Students cannot automatically transfer from one magnet or selective enrollment school or program into another. If a student who is enrolled in a magnet or selective enrollment school or program is interested in attending another magnet or selective enrollment school or program, the student must apply through the standard application procedures set out in this policy. Once a student transfers out of a magnet or selective enrollment school or program, if he/she wishes to return to that school or program, he/she must reapply for admission to that school or program through the standard application procedures.

2. Applications for Twins or Multiples: For applications for a magnet school magnet cluster school or magnet program (except performance-based magnet programs), parents/guardians of twins, triplets and other higher order multiple births have the option to link their applications together. This link connects the applicants together, ensuring the twins/multiples are treated as a unit in the lottery. This ensures that they will either gain placement together, or be next to each other on the waitlist. Parents/guardians of twins/multiples also have the option to not link their applications, in which case each child will be

independently processed in the lottery without connection to their twin or multiple sibling(s). This policy adopts the traditional meaning of twins and multiples, meaning siblings produced in the same pregnancy. For purposes of this policy, the terms twins and multiples do not include siblings adopted during the same year, adopted siblings born during the same 12-month period, biological siblings born from different pregnancies during the same 12-month period, or any other circumstance in which siblings are close in age but who were not produced in the same pregnancy.

3. **Affirmation:** All applications submitted under this policy must include a signed statement in which the parent or guardian affirms that the information contained in the application is true and correct. In the event that the District discovers that an applicant submitted false information including, but not necessarily limited to, information regarding the applicant's residence or sibling status, the applicant shall be subject to immediate removal from the magnet or selective enrollment school or program to which admission was gained based on false information. The CEO or designee shall establish a process to evaluate alleged fraud and make final determinations regarding student removal.

4. **Residency Requirement:** Enrollment in any CPS magnet or selective enrollment school or programs is limited to "residents" of the City of Chicago, as further described in the Board's Enrollment and Transfer Policy. A student is not required to reside in the City of Chicago in order to apply to these schools or programs; however, in order to enroll, the student must reside within the City limits no later than the July 1st immediately prior to the start of the school year that the student seeks enrollment. The Options for Knowledge publication may address procedures for compliance with the proof of residency requirement.

5. **Second Application Processes:** In the spring of each year, a second application process will be offered for magnet schools and magnet cluster schools that still have space available following the regular application process in the fall. The "End-of-Year Citywide Options Program" shall be conducted in accordance with application procedures published by the CEO or designee. Parents will be notified of application status in accordance with the procedures established for these programs by the CEO or designee.

6. **Application Appeals:** The CEO or designee is authorized to establish an appeals process for disputes regarding applications to a magnet, selective enrollment or other Options for Knowledge school or program.

VIII. NCLB TRANSFERS: The Board authorizes the CEO to the extent practicable, to incorporate a school choice transfer process, as specified in the No Child Left Behind Act (NCLB), within the enrollment process described herein for SEHS, elementary magnet schools, elementary magnet cluster schools and high school magnet programs. Under the NCLB Transfer program, transferring students receive transportation assistance to the extent required by NCLB and in accordance with CPS guidelines.

IX. STUDENTS WITH DISABILITIES: Magnet and selective enrollment schools and programs shall strive to meet the minimum enrollment targets of students with disabilities established by the *Corey H. court monitor*. If a school is below the minimum enrollment target, the school and the Office of Special Education and Supports (OSES) shall determine whether the placement of a program for students with low incidence disabilities is appropriate to assist the school in meeting the minimum enrollment target. In cases where the IEP of students with physical impairments requires that the children attend school in an accessible building and a magnet school constitutes the closest accessible building that can implement the IEP, such admissions decisions shall be made independent of the aforementioned process by the CEO or designee.

X. CONTINUATION OF ENROLLMENT: Absent extenuating circumstances that may affect the best interest of the student, once a student is admitted to a magnet or selective enrollment school or program, the student may remain enrolled in that school or program until the student reaches the highest grade level offered by that school; provided that remaining in the school does not adversely affect the student's social, emotional, and/or academic well-being. This right shall not be affected by changes that might be made regarding transportation guidelines pertaining to these schools. All students enrolled in a magnet or selective enrollment school or program are further subject to the transfer provisions identified in the Board's Enrollment and Transfer Policy.

XI. TRANSPORTATION:

1. Application to and acceptance in any magnet school or program or SEES shall be made without regard to whether a student is eligible for transportation services. Hence, a student may apply and be accepted to a magnet school or program or SEES regardless of whether the student would be entitled to receive transportation.

2. CPS provides transportation services during the regular school day to students attending its magnet schools and programs in accordance with applicable federal and state laws, any board reports related to specific schools and the following requirements. Subject to the availability of funding, the following transportation services will be provided:

a. Transportation service is provided to those students attending an elementary magnet school who live more than 1.5 miles and less than 6.0 miles from the school in which they are enrolled.

b. Transportation service is provided to those students attending a Regional Gifted Center who live more than 1.5 miles from the school in which they are enrolled (with the exception of Carnegie, Coonley and South Loop, which provide transportation as described in the Options for Knowledge publication).

c. Transportation service is provided to 7th and 8th grade students attending Academic Centers who live more than 1.5 miles from the school in which they are enrolled, in accordance with the procedures established for Academic Centers described in the Options for Knowledge publication.

d. Transportation service is provided to 6th, 7th and 8th grade students attending International Gifted Programs, who live more than 1.5 miles from the school in which they are enrolled, in accordance with the procedures established for International Gifted Programs described in the Options for Knowledge publication.

e. Transportation is provided to students attending any Classical Schools who live more than 1.5 miles from the school in which they are enrolled and who reside within the transportation ranges described in the Options for Knowledge publication.

3. The provisions of this policy will not act to limit the entitlement of any student who receives transportation services as a result of IEP accommodations, homelessness, NCLB School Choice or any other program that provides transportation services.

4. Transportation services are not provided to any student residing less than 1.5 miles from the school they are attending, unless a safety hazard exists within the minimum transportation distance. Parents requesting transportation within the 1.5 mile area must complete the "Request for Exception Application for Determination of Serious Safety Hazard" form and return it to the school principal. The request must be approved by the respective Chief of Schools with any appeals going to the CEO or designee.

5. Transportation services are not provided to students in the 9th through 12th grades attending any magnet high school, any selective enrollment high school or program, or any magnet program at the high school level.

6. The Chief Executive Officer may authorize adjustments to the transportation services set out in this policy as s/he deems necessary to best serve the needs of a particular magnet school or program or SEES. The Chief Executive Officer shall submit a quarterly report to the Board on any adjustments to transportation services authorized during the previous quarter.

XII. ACCOUNTABILITY STANDARDS AND PROGRAM STATUS: The CEO or designee is authorized to make annual evaluations regarding program status and continuation of resources, based on program compliance and fidelity, utilization rates and other factors. Further, at the end of each school year, the CEO may make determinations regarding the continuation or adjustment of any of the District's magnet and/or selective enrollment schools and programs. Any change that would eliminate a school's magnet or selective enrollment status is subject to Board approval. Any change that does not result in a change in status for the school is subject to approval by the CEO.

XIII. AUTHORIZATION TO ISSUE PROCEDURES AND GUIDELINES: The CEO or designee is authorized to establish application and selection procedures and requirements as necessary to effectively administer applications for enrollment in magnet and selective enrollment schools and programs and will publish these procedures and rules in the annual Options for Knowledge publication. The CEO may also issue revised or updated procedures, rules and guidelines as necessary for the effective implementation of the requirements of this policy. The CEO or designee is further authorized to formulate and issue SEHS principal discretion guidelines as specified in this Policy and issue revisions or updates to these guidelines as necessary for the effective implementation of the requirements of this policy.

XIV. ENFORCEMENT: Violations of this policy or any guidelines, manuals or procedures issued pursuant to or in relation to this policy are prohibited. Employees of the Board who commit such violations will be subjected to severe penalties, up to and including termination. Students who are enrolled in violation of this policy will be subject to removal from that magnet or selective school or program.

**AMEND BOARD REPORT 13-0828-PO5
ADOPT A SCHOOL QUALITY RATING POLICY**

THE CHIEF EXECUTIVE OFFICER RECOMMENDS:

That the Chicago Board of Education adopt a School Quality Rating Policy.

POLICY TEXT:

I. Purpose and Goals

This policy shall establish the standards and criteria for issuing a School Quality Rating and Accountability Status to each school that is either Good Standing status, Remediation status (which indicates the need for Provisional Support) or Probation status (which indicates the need for Intensive Support) per Section 5/34-8.3 of the Illinois School Code. This policy will take effect beginning with a School Quality Rating and Accountability Status issued to each school for the 2014-2015 school year based on school performance data gathered during the prior school year. This policy will also apply to subsequent school years unless amended or rescinded by the Board. A school's Accountability Status from the prior school year shall remain in effect until such time as the school is notified of its new status for the then-current school year that is issued in accordance with this policy.

This policy sets out a systematic means for measuring a school's performance and identifying schools in need of support and increased oversight due to insufficient levels of achievement and growth based on

the key indicators and School Quality Rating system as defined by the Board herein. Section 5/34-8.3 of the Illinois School Code provides for the remediation and probation of schools and requires the Chief Executive Officer ("CEO") of the Chicago Public Schools ("CPS") to monitor the performance of each school using the criteria and rating system established by the Board to identify those schools in which: (1) there is a failure to develop, implement, or comply with the school improvement plan; (2) there is a pervasive breakdown in the educational program as indicated by various factors such as the absence of improvement in reading and math achievement scores, an increased drop-out rate, a decreased graduation rate, or a decrease in the rate of student attendance; or (3) there is a failure or refusal to comply with the provisions of the School Code, other applicable laws, collective bargaining agreements, court orders, or with applicable Board rules and policies.

The Board recognizes that an effective and fair School Quality Rating system considers a broad range of indicators of success, including, but not limited to student test score performance and student academic growth, closing of achievement gaps, school culture and climate, attendance, graduation, and preparation for post-graduation success. Therefore, this policy establishes a comprehensive system to assess school performance in order to identify, monitor and assist schools with low student performance in these areas, as well as provide a framework for action to intervene in schools with stagnant or insufficient rates of student improvement. The School Quality Rating system also provides a means for recognition of schools who have demonstrated distinguished levels of performance.

II. Scope of the Policy

All CPS schools are subject to this policy, including, but not limited to, neighborhood schools, magnet schools, selective enrollment schools, contract schools, Option Schools, and schools with non-traditional grade structures. CPS charter schools are subject to the performance standards set out in this policy by and through the accountability provisions in their charter contract with the Board and shall annually receive a School Quality Rating and Accountability Status.

III. ACCOUNTABILITY INDICATORS, STANDARDS AND SCORING

A. Accountability Status Determination

A school shall receive a School Quality Rating and Accountability Status based upon its level of performance and growth. The school's School Quality Rating is determined based on a point system. A school is evaluated on each of the indicators identified in Sections III.B through III.D and receives points ranging from 1 to 5 on each indicator as specified. The points for each indicator are then weighted as described in Section III.E below and averaged to determine the school's overall weighted score, which will also range from 1 to 5. The school's overall weighted score is used to determine the school's School Quality Rating of either Tier 1, Tier 2, Tier 3, Tier 4 or Tier 5 as described in Section III.F below.

The tier rating issued to a school is then used in combination with other factors to determine whether the school is identified with an Accountability Status of Good Standing, Remediation or Probation, as follows:

1. Schools newly established by the Board shall receive an annual School Quality Rating as soon as sufficient data is available, but will remain in Good Standing status until completing the second year of operation or until such time as adequate measures of student achievement become available.
2. A school with a School Quality Rating of Tier 5 hereunder shall receive Probation status.
3. A school with a School Quality Rating of Tier 4 hereunder shall receive Remediation status, except when:
 - i. The school has been on Probation status for 2 or more consecutive years, in which case the school must receive a Tier 1, Tier 2, Tier 3 or Tier 4 rating for 2 consecutive years to be eligible for another Accountability Status and removal from Probation¹;
 - ii. The Board has taken an action under 105 ILCS 5/34-8.3(d)(2) or (4) at the school, in which case the school must remain on Probation for a minimum of 5 years or until the school has made Adequate Yearly Progress for 2 consecutive years, whichever occurs later; or
 - iii. The CEO has determined that the school faces academic problems that may not be sufficiently addressed through the Remediation process, in which case the school will receive Probation status. In making this determination, the CEO will consider various factors including the length of time the school has had a Tier 4 rating status, long-term academic trends, school culture and climate, and quality of school leadership.
4. A school with a School Quality Rating of Tier 1, Tier 2 or Tier 3 hereunder shall receive Good Standing status, except when:
 - i. The school has been on Probation status for 2 or more consecutive years, in which case the school must receive a Tier 1, Tier 2, Tier 3 or Tier 4 rating for 2 consecutive years to be eligible for another Accountability Status and removal from Probation¹;
 - ii. The school has been on Remediation status for 2 or more consecutive years, in which case the school must receive a Tier 1, Tier 2 or Tier 3 rating for 2 consecutive years to be eligible for another Accountability Status and removal from Remediation;

¹ When evaluating the rating history of a school to determine whether the school qualifies to be removed from Probation status, an Achievement Level rating of Level 1 or Level 2 earned under the 2013-2014 Performance, Remediation and Probation Policy may be used in combination with a Tier 1, Tier 2, Tier 3 or Tier 4 rating under this Policy to qualify a school to be removed from Probation.

- iii. The school has been on a combination of Remediation and Probation status for the last 2 consecutive years, in which case the school will receive Remediation status and must receive a Tier 1, Tier 2 or Tier 3 rating for 2 consecutive years to be eligible for another Accountability Status and removal from Remediation; or
- iv. The Board has taken an action under 105 ILCS 5/34-8.3(d)(2) or (4) at the school, in which case the school must remain on Probation for a minimum of 5 years or until the school has made Adequate Yearly Progress for 2 consecutive years, whichever occurs later.

Notwithstanding the foregoing, the CEO may at any time place any school on Probation status if the CEO determines that s/he must take necessary steps to satisfy legal requirements or other mandates, including, but not limited to, when the CEO determines: (a) that a school has failed or refused to comply with the provisions of the School Code, other applicable laws, collective bargaining agreements, court orders, or with applicable Board rules and policies; or (b) that a school with state or federal school improvement status has a school improvement plan, budget or any amendment thereto that may compromise, limit or otherwise impair the implementation of the remedial measures required by ISBE or NCLB. Nothing herein shall limit the Board's ability to take action in accordance with 105 ILCS 5/34-8.3(f).

B. Elementary School Performance Indicators

The indicators and standards and related points that determine an elementary school's School Quality Rating are as follows:

Elementary Performance Indicator	5 points	4 points	3 points	2 points	1 point

Each performance indicator and its respective weighting is set forth below. The CEO or designee may modify the applicable weights in instances where a school's data for a particular performance indicator is unavailable, incomplete or unreliable.

4. Weighting for Schools Serving both High School and Elementary School Grade Levels

Schools serving both elementary and high school grades will receive separate weighted scores and School Quality Ratings for their elementary program and their high school program. However, the school's overall School Quality Rating and Accountability Status is determined by combining the weighted scores from the school's elementary and the high school programs, and further weighting the combined score by the proportion of students in each program.

F. Assignment of a School Quality Rating

Based on the weighted number of points received, schools Each school will be assigned a School Quality Rating as follows: based on either its number of weighted points earned or its National School Attainment Percentile, as defined in the table below. If a school qualifies for one rating based on its number of weighted points and another rating based on its National School Attainment Percentile, the school will be granted the highest of the two ratings as its School Quality Rating. For elementary schools, the National School Attainment Percentile is based on NWEA Reading and Mathematics assessments in Grades 3-8 or in Grade 2 if the school's highest grade served is Grade 2. An elementary school must meet the National School Attainment Percentile minimum in both Reading and Mathematics to qualify for a School Quality Rating based on attainment percentile. For high schools, the National School Attainment Percentile is based on the EXPLORE, PLAN, and ACT assessments. A high school must meet the National School Attainment Percentile minimum based on its composite score for EXPLORE, PLAN, and ACT to qualify for a School Quality Rating based on attainment percentile. For a school to earn a School Quality Rating based on the attainment percentile rather than weighted points earned, the school must have a minimum 95% participation rate on all assessments that determine the school's attainment percentile.

Weighted Points Earned	School Quality Rating
4.0 or more	Tier 1
Between 3.5 and 3.9	Tier 2
Between 3.0 and 3.4	Tier 3
Between 2.0 and 2.9	Tier 4
Less than 2.0	Tier 5

<u>School Quality Rating</u>	<u>Weighted Points Earned</u>		<u>Minimum Attainment Percentile</u>
Tier 1	4.0 or more	OR	90 th
Tier 2	Between 3.5 and 3.9		70 th
Tier 3	Between 3.0 and 3.4		50 th
Tier 4	Between 2.0 and 2.9		40 th
Tier 5	Less than 2.0		—

For schools serving both elementary and high school grades, the school receives weighted scores and ratings for the elementary and high school programs separately, which are then combined into a single overall School Quality Rating as described in Section III.E.4. If either the elementary and/or high school program achieves a higher program rating based on their Minimum Attainment Percentile than their weighted points earned, that program will receive the higher tier rating. When combining both program scores into a single overall School Quality Rating, any program rating based on Minimum Attainment Percentile shall be converted into the lowest score associated with that tier for purposes of performing the weighted calculation as described in Section III.E.4. The lowest score associated with each tier are as follows: Tier 1 = 4 points, Tier 2 = 3.5 points, Tier 3 = 3 points, Tier 4 = 2 points.

Notwithstanding the foregoing, a Tier 1 rating will be assigned to: (i) an elementary school with a National School Attainment Percentile for NWEA in Grades 3-8, or in Grade 2 if the school's highest grade served is Grade 2, of 90th percentile or higher in reading and math and at least 95% participation rate in both reading and math; and (ii) a high school with a National School Attainment Percentile based on the EXPLORE, PLAN and ACT assessments of 90th percentile or higher and at least 95% participation rate on those assessments.

In the event the CEO determines that the performance indicators specified in this policy are not appropriate for measuring a school's performance, the CEO may recommend to the Board the use of other specified performance indicators to evaluate the school and issue its School Quality Rating and Accountability Status. The CEO shall use such alternate performance indicators when approved by the Board.

IV. SCHOOLS IDENTIFIED AS NEEDING REMEDIAL ASSISTANCE

On a date to be determined by the CEO or his designee, after school performance data is available, schools will be notified as to their Accountability Status hereunder.

A. Schools Placed on Remediation

Any school that receives a Remediation status as described in Section III.A above shall participate in a remedial program in which a Remediation Plan is developed by the CEO and/or the CEO's designees. A Remediation Plan may include one or more of the following components:

1. Drafting a new school improvement plan (currently known as the Continuous Improvement Work Plan, or CIWP);
2. Additional training for the local school council;
3. Directing the implementation of the school improvement plan; and
4. Mediating disputes or other obstacles to reform or improvement at the school.

A Remediation Plan is intended to provide the support and oversight necessary to prevent schools with declining or flat performance from entering Probation status, and to help schools that are exiting Probation reach Good Standing status. In creating a Remediation Plan, the CEO or designee shall give assistance to the school to ensure that all aspects of the plan, including the school budget, address the educational deficiencies at these schools.

For schools with a federal or state school improvement status for failure to make adequate yearly progress (AYP), the school improvement plan shall also include strategies and activities to achieve AYP and ensure the implementation of remedial measures required by ISBE or NCLB, as applicable. Any updates to such school improvement plan to address new data on the deficiencies at Remediation schools with a school improvement status shall be approved by the Board in accordance with the state's timeline for Board approval of school improvement plans.

The CEO or designee shall monitor each Remediation school's implementation of the final plan and the progress the school makes toward implementation of the plan and the correction of its educational deficiencies.

B. Schools Placed on Probation

1. **School Improvement Plan and Budget:** Each school placed on Probation shall have a school improvement plan and a school budget for correcting deficiencies identified by the Board. The CEO or designee shall develop a school improvement plan (currently known as the CIWP) that shall contain specific steps that the local school council and the school staff must take to correct identified deficiencies. The school's CIWP may serve as the school's Probation plan. The school budget shall include specific expenditures that support the implementation of this plan and that are directly calculated to correct educational and operational deficiencies identified at the school.

In creating or updating the required plan, the CEO or designee shall give assistance to Probation schools to ensure that all aspects of the plan, including the school budget, reflect and are tailored to the individual needs of the school and that the plan addresses the educational deficiencies at these schools. For schools with a federal or state school improvement status for failure to make adequate yearly progress (AYP), the school improvement plan shall also include strategies and activities to achieve AYP and ensure the implementation of remedial measures required by ISBE or NCLB, as applicable.

The Board shall approve school improvement plans and budget for all schools, including schools placed on Probation, as part of the annual school fiscal year budget resolution. Any updates to such school improvement plan or school budget to address new data on the deficiencies at Probation schools and schools with a state or federal school improvement status shall be approved by the Board in accordance with the state's timeline for Board approval of school improvement plans.

Except when otherwise specified by the CEO, the Chief of Schools for the school's network and the Chief of Schools' designees shall serve as the probation team that will identify the educational and operational deficiencies at Probation schools in their network to be addressed in the school improvement plan and budget presented to the Board for approval.

2. **Monitoring:** The CEO or designee shall monitor each Probation school's implementation of the final plan and the progress the school makes toward implementation of the plan and the correction of its educational deficiencies.

3. **Additional Corrective Measures:** Schools placed on Probation that, after at least one year, fail to make adequate progress in correcting deficiencies are subject to the following actions by the approval of the Board, after an opportunity for a hearing:

- a. Ordering new local school council elections;
- b. Removing and replacing the principal;
- c. Replacement of faculty members, subject to the provisions of Section 24A-5 of the Illinois School Code;
- d. Reconstitution of the attendance center and replacement and reassignment by the CEO of all employees of the attendance center;
- e. Intervention under Section 34-8.4 of the Illinois School Code;
- f. Operating an attendance center as a contract turnaround school;
- g. Closing of the school; or
- h. Any other action authorized under Section 34-8.3 of the Illinois School Code

The Law Department shall develop and disseminate hearing procedures for hearings required before taking any of the corrective actions specified above.

AMEND BOARD REPORT 14-0122-EX11

**CONSIDERATION OF A PROPOSAL FOR CHARTER AND CHARTER SCHOOL AGREEMENT
SUBMITTED BY CONCEPT SCHOOLS NFP, AN ILLINOIS NOT-FOR-PROFIT CORPORATION
(HORIZION SCIENCE ACADEMY CLAY EVANS CHARTER SCHOOL)**

THE CHIEF EXECUTIVE OFFICER RECOMMENDS:

Consideration of a proposal for charter and Charter School Agreement submitted by Concept Schools NFP for the operation of Horizon Science Academy – Chatham Charter School, an Illinois not-for-profit corporation for a five-year term, beginning July 1, 2014. Approval will be contingent as detailed below. The authority granted herein shall automatically rescind in the event a written Charter School Agreement is not executed by the Board and the charter school's governing board by June 1, 2014. The agreement presented for consideration herein will only take effect upon certification by the Illinois State Board of Education. Information pertinent to this matter is stated below.

This April 2014 amendment is necessary to (a) authorize the final approval of this charter school proposal, (b) correct the legal name of the school operator, (c) change the name of the Horizon Science Academy – Chatham Charter School to Horizon Science Academy Clay Evans Charter School, (d) clarify the expansion of grades at the charter school in years 2-5, (e) increase the at capacity enrollment of the charter school from 725 to 735 students, and (f) authorize the disbursement of one-time incubation and startup funds to Concept Schools NFP for the new charter school. The authority granted herein shall automatically rescind in the event a written Charter School Agreement is not executed by the Board and the charter school's governing board within 120 days of the date of this amended Board Report. The agreement authorized herein will only take effect upon certification by the Illinois State Board of Education.

This August 2014 amendment is necessary to deny the proposed change of location for Horizon Science Academy Clay Evans Charter School from 8522 S. Lafayette to 9130-40 S. Vincennes. In July 2014, Concept Schools NFP informed the Office of Innovation and Incubation that it would not be able to complete construction on its school facility at 8522 S. Lafayette and sought to start the 2014-2015 school year at the 9130-40 S. Vincennes facility. The Office of Innovation and Incubation provided Concept Schools NFP with specific deadlines in order for the 9130-40 S. Vincennes facility to be viable and ready at the start of the 2014-2015 school year. However, Concept Schools NFP failed to meet specific deadlines.

This August 2014 amendment is also necessary to authorize an amended and restated Charter School Agreement to reflect (a) the delayed opening of the school until fall of 2015 contingent upon the identification of a viable permanent facility by January 1, 2015, and (b) the revised term. The specifics regarding these contingencies and the requested submission will be communicated by the Chief Executive Officer or her designee to Concept Schools NFP in another formal Letter of Conditions. The authority granted herein shall automatically rescind in the event a written amended and restated Charter School Agreement is not executed by the Board and the charter school's governing board within 120 days of the date of this amended Board Report. The amended and restated agreement authorized herein will only take effect upon certification by the Illinois State Board of Education.

DESCRIPTION: The Charter Schools Law (105 ILCS 5/27A-1 et seq., as amended) provides that up to 70 charter schools may be operated in the City of Chicago. Proposals to operate charter schools are submitted to the Board for evaluation pursuant to the standards set forth in 105 ILCS 5/27A-8, and the Board convenes a public meeting to obtain information to assist in its decision to grant or deny each proposal and report its action to the Illinois State Board of Education. The State Board determines whether the approved charter school proposal and the proposed contract satisfy the provisions of the Charter Schools Law and, if so, certifies the charter school.

CHARTER APPLICATION PROPOSAL: The mission of Horizon Science Academy Clay Evans Charter School will be to prepare its students for college by creating an effective learning environment of higher standards and expectations with a challenging college preparatory mathematics, science, engineering and technology (STEM) curriculum. The school will implement Concept Schools NFP design, a proven successful, student-centered, and evidenced-based educational design, currently being implemented in thirty charter schools in the Midwest. The main characteristics of Concept design are: 1. Rigorous college preparatory curriculum with a math, science and technology emphasis, 2. Longer school days and extended school year, 3. Small school and class sizes, 4. Personalized education and 5. Data-driven instruction. Horizon Science Academy Clay Evans Charter School will be located in Chatham at 8522 S. Lafayette 9130 S. Vincennes Avenue. The school will open in the fall 2014 and will serve no more than 450 students in grades K-8. They will expand one grade per year and will grow to serve 735 students in grades K-12 at capacity. A community meeting and a public hearing on charter school submissions submitted in 2013, as required by statute, were held on December 16, 2013 and January 7, 2014.

In July 2014, Concept Schools NFP sought to change its location from a school facility at 8522 S. Lafayette to a facility at 9130-40 S. Vincennes. A public hearing on the change of location was held on Tuesday, August 19, 2014. The hearing was recorded and a summary report is available for review.

It has been determined that the 9130-40 S. Vincennes facility is not viable and ready for the 2014-2015 school year. As a result, the opening of the school shall be delayed until fall of 2015 contingent upon identification of a viable permanent facility by January 1, 2015 and the term of the agreement shall be revised. The specifics regarding these contingencies and the requested submission will be communicated by the Chief Executive Officer or her designee to Concept Schools NFP in another formal Letter of Conditions.

TERM: If approved, the term of the Concept Schools NFP charter and agreement shall commence July 1, 2014 2015 and end June 30, 2019 2020.

CONTINGENT APPROVAL: Final approval of this proposal is contingent upon Concept Schools NFP submitting information regarding the identification of principal with a proven track record driving student achievement with similar student populations and a viable permanent facility by April 1, 2014. The specifics regarding these contingencies and the requested submission will be communicated by the Chief

Executive Officer or her designee to Concept Schools NFP in a formal Letter of Conditions. The Board hereby directs the Chief Executive Officer or her designee to monitor the deadlines set forth in the Letter of Conditions, oversee the evaluation of the submission by Concept Schools NFP, and provide a written report regarding compliance with the Letter of Conditions to the Board by May 1, 2014. Thereafter, this will be re-presented to the Board for a determination regarding whether the contingencies have been satisfied. Failure to meet this contingency according to the terms set forth in the Letter of Conditions may, at the option of the Board, result in the rescission of the authority granted herein.

In March 2014, Concept Schools NFP submitted requested materials in response to the contingencies for final approval of this proposal. The Board reviewed these materials and determined that Concept Schools NFP met the contingencies stated in the Letter of Conditions. A public hearing on the proposed new school was held on Wednesday, April 16, 2014. The hearing was recorded and a summary report is available for review.

AUTHORIZATION: Authorize the General Counsel to include relevant terms and conditions, including any indemnities to be provided to the charter school, in the written amended and restated Charter School Agreement. Authorize the President and Secretary to execute the written amended and restated Charter School Agreement. Authorize the Senior Director of the Office of New Schools to issue a letter notifying the Illinois State Board of Education of the action(s) approved hereunder and to submit the approved proposal and signed amended and restated Charter School Agreement to the Illinois State Board of Education for certification. The use of the funding will be outlined by the Office of Innovation and Incubation. Funding was disbursed in anticipation of Concept Schools NFP opening the charter school in the fall of 2014. Concept School NFP shall repay any unspent funds to the Board; the balance of the funds shall be disbursed to Concept School NFP upon the identification of a viable permanent facility approved by the Board.

STARTUP FUNDING: Upon the execution of the Charter School Agreement with Concept Schools NFP, the Board will disburse an amount not to exceed \$611,419 in startup funding for Horizon Science Academy Clay Evans Charter School. The use of the funding will be outlined by the Office of Innovation and Incubation. Funding was disbursed in anticipation of Concept Schools NFP opening the charter school in the fall of 2014. FINANCIAL: The financial implications will be addressed during the development of the ~~2014-2015-2015-2016~~ fiscal year budget. Since the School Code of Illinois prohibits the incurring of any liability unless an appropriation has been previously made, expenditures beyond FY15 are deemed to be contingent liabilities only, subject to appropriation in subsequent fiscal year budgets.
