# **Finance & Audit Committee**

Second Quarter - Fiscal Year 2019 October 24, 2018

### Audit Update

## **Completed Audits - Vendor Screening**

**Objective:** To provide recommendations on strengthening the vendor screening process over the Integrated Facility Management Project (IFMP).

**Overall Observation:** A robust and formal vendor due diligence process is needed to provide management assurance that potential IFMP vendors are adequately vetted prior to contract award, as well as a vendor management policy that establishes vendor monitoring requirements post contract award.

### Key Recommendations:

Actions:

- Creation of a vendor management policy that clearly establishes roles and responsibilities for vendor management and monitoring pre and post contract award for Procurement, Law Department, and User groups
- Training of current staff to ensure proper due diligence protocols are consistently performed
- Creation of a vendor due diligence checklist to ensure completeness and uniformity in vendor screening process

### **Current Management Efforts**

- Creation of a Contracting Risk Matrix to identify priority areas to focus due diligence procedures
- Creation of due diligence checklist for use pre contract award
- Implementation of a Procurement Training Schedule
