and kids in Chicago are  
doing substantially better  
than other Illinois kids

# Commitments

**We fulfill our vision through these Commitments:**

## Academic Progress

A high-quality education develops in young people not only strong academic skills, but a love of learning and the ability to work with others, take initiative, solve problems creatively, live healthy lives, and become active citizens in their communities. We will design instruction and learning environments that provide for individual needs and help prepare all of our students for a successful adulthood.

## Financial Stability

Fulfilling our promise to provide a high-quality education requires that we remain on sound financial footing and serve as good stewards of public and philanthropic funds. We must also advocate with the wider Chicago community for fair school funding from the state so all of Chicago's children receive the educational resources they need and deserve.

## Integrity

We respect our students and families, and the diverse communities in which they live, and honor them as partners in our shared mission. We will earn their trust by communicating openly and acting on community feedback.
