

**January 25, 2023 Board Meeting Written Comments**  
**Received between Monday, January 23<sup>rd</sup> and Thursday, January 26<sup>th</sup>**  
**Submitted via Written Comments Form**

1	<p>My school need improvement, I go to Miles Davis Magnet Academy and a teacher that really help everyone in the school got fired. We need him back his name is Mr. Mitchell. The principal fired him because he gave out his opinion. We also can't wear purses ( I am a thirteen year old female) and we need them. I come from school almost everyday, with a headache because they don't let us drink water and I don't like faucet water. We really need improvement please help us.</p>
2	<p>Teachers deserve 12 weeks paid parental leave. We are treated at city employees at every turn, including being forced to live within city limits. There is no reasonable explanation for us being left out of the 12 week parental leave.</p>
3	<p>Hello I go to a cps school miles Davis magnet academy. The school is very terrible it is Infested with mice. And the pipes were busted at the school and had the whole school smelling like gas for a week and my school did nothing about it. They also have teachers who are very disrespectful specially the math and English teacher. Here's one example for the math teacher she doesn't like to answer the student's questions about work. When we ask her questions about the work she tells us what don't we understand and we tell her the whole assignment she will ignore us and tells us that's not a question and continues to do something different. She also has us behind on everything so when we take test from Illinois or the city test we never have high scores. Just look at majority of are 8th graders selective enrollment test. But in English class instead of the teacher helping us she judges us. One time she told us we were to broke to go to a restaurant. Are school also can't keep a stem teacher even though we are a stem school. Are school has many problems and I am hoping y'all can come visit it and take a look. While y'all are there y'all will probably see how dirty are school is and a lot of mice traps and some dead mice laying around. Y'all also might see that are school lunch is not edible and sometimes still frozen but all time not good. Are school also doesn't go by the cps lunch schedule and sometimes they don't have enough food for are class because my class is the last to eat which is there excuse. Hopefully we can see some changes thank you.</p>
